

Individual Care that Makes a Difference

The
Therapy
INSTITUTE LLC

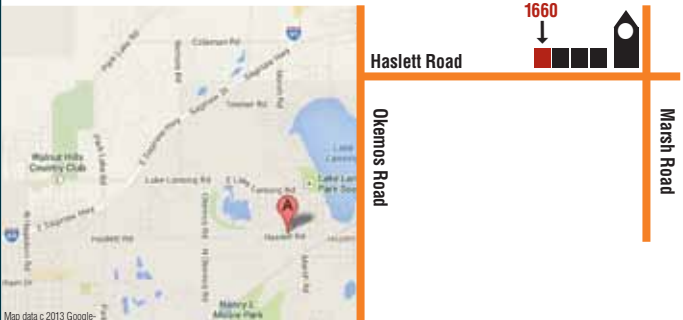

The Difference for You . . .

You will experience a unique approach to physical therapy at The Therapy Institute. You will work individually with a licensed Physical Therapist during treatment sessions to ensure quality care and superior results. Our therapists have received training in both the national and international settings. We emphasize advanced training in orthopedics and manual therapy. You will have access to therapists that have attained board certification in orthopedic physical therapy.

Evaluation and treatment are performed on a variety of muscle and joint conditions such as:

- Shoulder and knee problems
- Neck and back pain
- Sports injuries
- Arthritic disorders
- Tendonitis, sprains and strains
- Craniomandibular disorders (TMJ)
- Total joint replacements

You will receive a hands-on treatment approach. This allows your therapist to more closely monitor your progress and adjust your program to meet your needs. As your condition changes, so will your program. Let The Therapy Institute make a difference to you!
